This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

CALENDAR

OF THE

SHREWSBURY

BOROUGH RECORDS

Harvard College Library.

FROM

The Town Clerk,
Shrewsbury,
4 Jan. 1897.

CALENDAR

OF THE

Muniments & Records

OF THE

BOROUGH OF

SHREWSBURY.

1896.

SHREWSBURY:

L. WILDING, PRINTER AND STATIONER, 33 CASTLE STREET.

PREFACE.

THE following Calendar of the Muniments and Records of the Borough of Shrewsbury has been compiled by a Special Committee appointed by the Finance Committee of the Corporation at a Meeting held 5th February, 1889. The constitution of this Committee afterwards underwent several changes owing to the retirement of some members and the addition of others.

The Committee met at the Guildhall every Tuesday, with few intermissions, for a period of upwards of five years, until the Calendar was finally completed.

They carefully examined the whole of the Records prior to the year 1837, and cleaned them, tied them up in brown paper packages, sorted and classified them, attaching a label of contents and date to each package. They also arranged them in 78 tin boxes, and made the Calendar of the whole, which is now printed.

It may, perhaps, be mentioned, that soon after the rough draft of the Calendar was completed, it was submitted, unofficially, to some members of the Royal Archæological Institute of Great Britain, which met in July, 1894, at Shrewsbury, and that the principle of arrangement received their approval.

On the 16th of June, 1894, the Committee presented a Report of their work to the Mayor and Corporation, and suggested, among other things that the MS. Calendar they had prepared should be printed, that additional iron frame-work to hold the boxes should be made, and the contents of each box be plainly painted on its front. The Report was in due course adopted by the Corporation, and the suggestions of the Committee were ordered to be carried out.

The Town Clerk

PREFACE.

THE following Calendar of the Muniments and Records of the Borough of Shrewsbury has been compiled by a Special Committee appointed by the Finance Committee of the Corporation at a Meeting held 5th February, 1889. The constitution of this Committee afterwards underwent several changes owing to the retirement of some members and the addition of others.

The Committee met at the Guildhall every Tuesday, with few intermissions, for a period of upwards of five years, until the Calendar was finally completed.

They carefully examined the whole of the Records prior to the year 1837, and cleaned them, tied them up in brown paper packages, sorted and classified them, attaching a label of contents and date to each package. They also arranged them in 78 tin boxes, and made the Calendar of the whole, which is now printed.

It may, perhaps, be mentioned, that soon after the rough draft of the Calendar was completed, it was submitted, unofficially, to some members of the Royal Archæological Institute of Great Britain, which met in July, 1894, at Shrewsbury, and that the principle of arrangement received their approval.

On the 16th of June, 1894, the Committee presented a Report of their work to the Mayor and Corporation, and suggested, among other things that the MS. Calendar they had prepared should be printed, that additional iron frame-work to hold the boxes should be made, and the contents of each box be plainly painted on its front. The Report was in due course adopted by the Corporation, and the suggestions of the Committee were ordered to be carried out.

At the invitation of the Corporation, the Historical MSS. Commissioners sent down the Rev. W. D. Macray, of Oxford, to examine and report upon the Records. Mr. Macray commenced his work on the 30th of April, 1895, but his Report has not yet been printed by the Commissioners.

The Committee can scarcely hope that the Calendar is absolutely free from mistakes. And being the work of several, documents of the same class are sometimes variously described: *e.g.* Bailiffs' Accounts are in some instances simply so called, and in others "Stallage and Murage, etc."; and under Court Rolls the same class of documents are described as "Curia Magna," "Great Court," "Rot. Mag. Cur. etc." according to the judgment of the individual worker. But the Committee believe that their classification is in the main correct, and that there will be now no difficulty in getting a clue to the contents of each document.

Since the preparation of the Calendar, the packages have all been numbered consecutively from 1 to 2798, by two of the Committee, in order to facilitate readiness of access to the Records. Any document can now be found in a few minutes, by simply giving the number it bears.

The power of giving permission to see the Records rests with the Town Clerk alone, to whom application must in every case be made.
